Düsseldorf, Germany | Nationality: Indian

EDUCATION

SRH Hochschule Heidelberg, Germany

Master of Science in Applied Computer Science

Oct. '22 — Oct. '24

- Specialization in Mobile Computing & Artificial Intelligence

Webster University Geneva, Switzerland

Bachelor of Science in Computer Science

Jan. '20 — Dec. '21

- Transferred from New York University
- Spring 2021 Dean's List + Academic Scholarship recipient

EXPERIENCE

BEEP! – Düsseldorf, Germany

Tech Lead - Flutter, Firebase, Google Cloud Platform, TypeScript, Git

Mar. '25 — present

- Lead architecture and full-stack development of the "BEEP! Scan & Go" retail app that allows customers to scan items at stores and pay directly via smartphone
- Define and steer the technical roadmap, coordinate development sprints and ensure the platform's scalability, performance, and compliance (payment, data-flow, GDPR/TSE-compatibility)
- Collaborate with business stakeholders and retail partners to integrate payment systems and existing POS infrastructures, enabling seamless store onboarding with minimal hardware overhead

Airbus – Hamburg, Germany

Software Development Intern - Python, Dash, HTML, CSS, JavaScript, Git

Oct. '23 — Mar. '24

- Collaborated within the Flight Test Analysis teams to develop a software solution for efficient visualization of data, from design to deployment
- Engaged in optimization of software systems critical to aerospace operations, acquiring practical knowledge in aviation standards and regulations

Ketl.io – Geneva, Switzerland

Backend Developer - Python, MongoDB, Docker, gRPC

Mar. '22 — Jun. '22

- Assisted an early-stage startup with the evolution of their tech stack for enhanced scalability and performance
- Integrated newer technologies with existing microservices architecture

Page Vault – Chicago, USA

Freelance Backend Developer – Python, HTML, Selenium

Oct. '19 — May. '21

- Researched and identified alternate web capturing solutions for large websites
- Developed automated social media scraping tools utilized for litigation in the US

FICSA – Geneva, Switzerland

Web Technician Intern – HTML, CSS, JavaScript

Aug '20 — Dec. '20

- Led a small team to modernize and boost the communications and online presence of a small NGO that primarily deals with UN staff associations
- Designed and implemented a chatbot to bolster outreach

Premier Properties - New York, USA

Jun. '18 — Sep. '18

Freelance Backend Developer — Python, HTML, Selenium

- Introduced web scraping and data extraction strategies to a small realty agency
- Built Python scripts to navigate through and extract key online data, leading to a 700% increase in total number of leads

United Nations Population Fund - New York, USA

Apr. '17 — Jun. '17

Media Intern — HTML, CSS, Javascript

- Migrated and updated previous UNFPA website to a newer version, along with the designing of new websites and templates for their intranet

SKILLS

Python, C++, Flutter, Google Cloud Platform, Angular, Vue.js, HTML, CSS, TypeScript, SQL, MongoDB, ExpressJS, NodeJS, Docker, Git, Django, Dash, Selenium, Unity Game Engine, Adobe Photoshop, Agile, MS Office

PROJECTS

Flyable (Master's Thesis Project) — Vue.js, Express, Node.js, Firebase

Accessible flight booking platform designed to empower users with disabilities by integrating assistive technologies, customizability options and real-time flight information

Ascension — Unity, C#

Endless climber 2-D videogame with single, multiplayer and co-op modes

Task Manager — Angular, Express, Node.js, MongoDB

Web-based organization tool designed to enhance productivity using tasks

TechStop — Python, Django, HTML, CSS, SQLite

Online retail management system for vendors to list, update, track and delete their products
